We've used Alaska Aerofuel/Fairbanks consistently since 1995. **It's a great Tech Stop for our China trips. Aerofuel's mature, experienced personnel handle everything smoothly** when we arrive with our company aircraft. There are also nice hotels and terrific restaurants near the airport."

Carl E. Henke, Managing Director
Anheuser-Busch Flight Operations

Alaska Aerofuel consistently **turns our Global Express in less than 30 minutes.** Fairbanks International is a user-friendly airport. Our passengers enjoy stretching their legs in the crisp clean air of Fairbanks, winter or summer."

Bill Mansker, International Chief Pilot
Wal-Mart Aviation

The crew at Alaska Aerofuel does an outstanding job ensuring everything goes well. Customs is prompt and **the weather is usually better than Anchorage.** I've encountered delays at Anchorage on more than one occasion and **since 'discovering' Fairbanks and Alaska Aerofuel, this has become our Tech Stop of choice in Alaska."**

Gil Brandenburg, Captain G5
MDL Consultants
